PROFESSIONAL SUMMARY

Software Engineer in training, specializing in IT Security, with experience in technical support, vulnerability management, systems administration, and enterprise platform migrations. Solid knowledge of web and backend development, databases, cloud platforms, and compliance with international standards such as ISO 27001. I stand out for continuous learning, attention to detail, organization, and effective communication — qualities I apply to optimize processes and deliver secure, efficient technology solutions in any work environment.

EXPERIENCE

Systems Intern – IT
MARCSEAL S.A.
Technical and systems support, including participation in the corporate ERP migration.

May 2024 — November 2024
Quito, Ecuador

RESPONSIBILITIES

- Provided systems support (HelpDesk, ticketing).
- Supported networks, office equipment, and printers.
- Migrated the CANORUS ERP (Genexus 16): migrated and maintained the database on Genexus 18 WorkWithPlus.
- Managed inventory of purchases and electronic supplies.

TECHNOLOGIES

Genexus · SQL Server · HelpDesk · Networking

Information Security Intern
Coris del Ecuador
Vulnerability management and support for ISO 27001 compliance.

December 2024 — June 2025
Quito, Ecuador

RESPONSIBILITIES

- Managed vulnerabilities using Nessus.
- Served as security assistant: review and reporting.
- Administered the Information Security Management System (ISMS).
- Supported ISO 27001 compliance and participated in the certification audit.
- Assisted with equipment and DataCenter restructuring.

TECHNOLOGIES

Nessus · ISO 27001 · ISMS · Vulnerability Management

Tech & Operations Associate – IT & AI
Marino Robalino LLC
Planning of an internal automation system and support for EB-1A case management.

August 2025 — October 2025
Remote

RESPONSIBILITIES

- Participated in planning and schematic design of an internal automation system to optimize workflows and document management.
- Collaborated on structuring operational processes, contributing a technical focus on efficiency, traceability, and digitization of information.
- Supported the EB-1A case management team, assisting with review, organization, and consolidation of documents for international clients.
