ABOUT ME

I am a technology professional specializing in IT security, with solid experience in vulnerability management, security audits, and systems administration. I have advanced knowledge of various technology platforms and security tools, backed by relevant certifications such as Scrum Foundation Professional, Cisco Cybersecurity Essentials, NDG Linux Essentials, among others.

My professional career includes significant contributions in specialized technical support, business systems migration, compliance with international standards (ISO 27001), and restructuring of critical infrastructures. My approach is characterized by consistency, responsibility, and effective communication, always seeking to optimize business processes through the secure and efficient implementation of technological solutions.

I am currently dedicated to continuously strengthening my technical and personal skills to offer innovative solutions that guarantee the integrity, availability, and confidentiality of information in demanding corporate environments.

PROFESSIONAL EXPERIENCE

Systems Intern - IT

MARCSEAL S.A. | May 2024 - November 2024

- Systems Support (HelpDesk, Tickets).
- Support for Networks, Office Automation, Printers.
- System Migration: ERP CANORUS based on Genexus 16, migration and maintenance of the database to Genexus 18 WorkWithPlus was carried out.
- Inventory of Purchases and Electronic Supplies.

Information Security Intern

Coris del Ecuador | December 2024 - June 2025

- Vulnerability Management (Nessus)
- Security Assistant: Review and Reports
- Information Security Management System Administration
- Compliance with Standard 27001
- Participated in the Audit for ISO 27001 certification
- Support for equipment and DataCenter restructuring.

Tech & Operations Associate - IT & AI

Marino Robalino LLC | August 2025 - October 2025

- I participated in the planning and schematic design of an internal automation system aimed at optimizing workflows and document management within the consulting environment. I collaborated in the structuring of operational processes, contributing a technical vision focused on efficiency, traceability, and digitization of information.
- I was part of the team responsible for managing EB-1A files, supporting the review, organization, and consolidation of documents for international clients. This experience allowed me to gain an in-depth understanding of global consulting processes, strengthen my skills in operational analysis and data management, and apply principles of digital transformation and automation in real business contexts.

EDUCATION

- **Escuela Politécnica Nacional**

Undergraduate Studies in Software Engineering | May 2021 - September 2027
(In Progress)

- **Unidad Educativa "Paulo VI"**

Bachelor of Science Degree | September 2012 - July 2018

SKILLS

- Linux | Advanced
- Pentesting | Advanced
- Microsoft Word | Expert
- VirtualBox | Expert
- Microsoft Azure | Advanced
- Microsoft Excel | Expert
- Microsoft PowerPoint | Expert
- HTML CSS JS | Expert
- Java | Expert
- Python | Expert

LANGUAGES

Spanish
Native

English
C1 Level
